

POSITION

As Foreign Affairs Minister of Bria, you are representing a large and wealthy nation that is the political and economic leader in its region. Bria's early investment in quantum computing has made it a world leader in the field. You aim to make Bria the world's largest producer of helium, which in its liquid form is critical for cooling quantum computing.

You have the reputation of being uncompromising in diplomatic negotiations, particularly in order to protect the nation's own economic and political interests (tech supremacy). This has been viewed unfavourably by neighbouring states.

CONFLICT

Conflict with nation of Solte:

Ongoing dispute over a small region that has great hydropower capacity, which has resulted in a few military skirmishes.

SOLTE
