

## POSITION

As CEO of Medormar Corporation you provided significant investment in advanced engineering and manufacturing capacity in Bria. Your corporation has benefited from the strong investment by the government in industry innovation. You collaborate closely with Bria National University and secured priority rights with the university to commercialise any IP produced by the Department of Physics in quantum computing, which would potentially allow Medormar Corp to maintain exclusive IP rights over any technology that is developed.

## CONFLICT

### **Conflict with nations of Lauze and Solte:**

Medormar Corp has been investing in advanced engineering and manufacturing capacity in Bria, which has led to an influx of skilled workers from neighbouring countries, Lauze and Solte. These countries are concerned about the impacts of 'brain drain' on their economies, but you are not bothered.
