

POSITION

You are the Foreign Affairs Minister of a small nation known for its skilled researchers and engineers but you don't have enough scale or funding to compete with Lauze and Bria in the race to develop quantum computing.

Your interest is progressing quantum collaborations with other nations with the expectation that these partnerships will enable Solte to develop a quantum computing facility once the technology is sufficiently advanced.

CONFLICT

Potential conflict with Bria:

You have served your centre-right government since decades. As Foreign Affairs Minister, you contributed significantly to science diplomacy, relying on science partnerships and sharing agreements to stay technologically relevant. While you are determined to advance quantum diplomacy and collaborations with other nations, your counterpart in Bria (the Foreign Affairs Minister) is only interested in securing Bria's quantum supremacy.
