

## POSITION

You are the Vice-Chancellor of Lauze National University and very much aware that technology investment is unlikely to increase under the newly elected Lauze government. Therefore, you desire to explore new partnerships with industry to generate funding and ensure the viability of Lauze National University's ongoing research programmes.

## CONFLICT

### **Domestic conflict with CTO of Betude Corp:**

Lauze National University has developed the first quantum computer that can claim quantum supremacy. This is thanks to the clever work of your university's scientists in collaboration with Betude Corporation. You are wary of the commercial interests Betude Corp represents, and want to ensure that the University's research agenda has some degree of negotiated autonomy – i.e. is not entirely dictated by corporate profit motives.

LAUZE
