Level of studies:

The following has been agreed:

Art. 1 - Scope and duration of the traineeship

Traineeships are offered by CERN in order to gain practical work experience, supplementing the academic studies pursued by the Trainee at the Educational Establishment. The Trainee is granted a traineeship at CERN subject to the provisions of this traineeship agreement, for the duration set out below.

This traineeship agreement is without prejudice to the provisions of any arrangement concluded between the Trainee and the Educational Establishment, provided it is consistent with the provisions of this traineeship agreement.

CERN shall as much as possible assign tasks to the Trainee that correspond to the level and subject matter of his or her studies.

Start date: End date:

Subject:

Art. 2 - Status of the Trainee

The Trainee shall throughout the traineeship remain enrolled at the Educational Establishment and at CERN have the status of associated member of the personnel.

As an associated member of the personnel, the Trainee shall be subject to the Staff Rules and Regulations of CERN, including in matters of working hours and leave, conduct, intellectual property, safety and discipline.

Art. 3 - Social protection

Social insurance cover of the Trainee is the responsibility of the Educational Establishment, or, that failing, the Trainee's own responsibility.

It shall include adequate health and accident insurance coverage in both Switzerland and France. CERN shall only provide insurance covering the financial consequences of occupational illness and accidents.

If the Trainee has an accident during the traineeship, CERN shall inform the Educational Establishment of the accident and transmit all relevant information to it.

Art. 4 - Subsistence allowance

CERN makes a financial contribution towards the cost of the Trainee's subsistence in the local area. This subsistence allowance will not be considered as remuneration.

Art. 5 - Publications relating to the traineeship

Any publication relating to the traineeship (for instance a traineeship report) shall be subject to written authorization by the Trainee's supervisor at CERN.

Art. 6 - Governing law

The provisions of this traineeship agreement shall be interpreted in accordance with their true meaning and effect. Without prejudice to CERN's status as an Intergovernmental Organization, reference shall be made to Swiss substantive law where the matter is not specifically covered by this traineeship agreement or a provision of this traineeship agreement is ambiguous or unclear. Such reference shall be made exclusively for the matter or provision concerned and shall not apply to the other provisions of this traineeship agreement.

Except in so far as the Staff Rules and Regulations of CERN stipulate other means of settlement, any dispute arising from this traineeship involving CERN shall be settled by arbitration, in accordance with a procedure to be defined by the parties to the dispute, taking into account CERN's status as an Intergovernmental Organization.
