Are you from a CERN Member or Associate Member State?

NO

YES

As an Intergovernmental Organization (IGO), CERN is funded primarily through contributions from its Member States or Associate Member States (see [home.cern/about/member-states](http://home.cern/about/member-states)). Accordingly, as is standard for IGOs, CERN recruits its Staff Members, most of its Fellows and the participants in its Student Programmes from nationals of these countries. Note: for fellowship applicants, a few Marie Curie and Senior fellowships opportunities are available for nationals of other countries.

Apply for our Doctoral student programme

Apply for our Summer, Technical, Administrative student programmes

Apply for our Summer student programme for NMS

Apply for our TTE programme

Apply for our Fellowship, COFUND or Marie-Curie
