SUMMER BAR-B-Q

We wish to thank all the players who took part in this years competitions and we remind you that we will organize the usual BAR-B-Q for the end of the season. It will be held at the CERN BBQ site in Preessin on the **Saturday 1st July 1989**. Prices are as follow :

Non members : CHF 20.-

Members : CHF 15.-

Children : CHF 5.-

We will receive reservation until the **28th June**.
Please contact :

G. Peiro 3733 - (13)2032

G. Beetham 5124 - (13)4015

.....
Name :

I would like to reserve : non members place(s)
: members place(s)
: children place(s)

on : **Saturday, 1st July 1989**

At : **CERN BBQ Site**

From : **1.00 p.m.**

SUBAQUATIQUE

La traditionnelle "*sortie de Thonon*" aura lieu le **dimanche 2 juillet 1989**.

Rendez-vous sur la place du port en face du débarcadère à **9h.00 précises**. Apportez votre pique-nique; il y aura un feu de bois pour les grillades.

Le transport du matériel sera assuré par bateau.

VENEZ NOMBREUX !

CRICKET

CERN travelled to Porlezza, Italy last weekend using our age-old motto of "We came, we saw, we lost". This proved to be the case on Saturday with us at 73 all out vs. Milan, Davenport (16) and Viv Richards-Extras (17) being the two top scorers. Hirst (3-19), and Hill (2-16) inflicted the most damage but Milan's other 4 bowlers only conceded another 24 runs between them. Our total wasn't easy to defend and was soon overtaken when play re-commenced, Chohan's 2 for 20 probably being the best bowling analysis.

Some inspired captaincy was needed after this crushing defeat, and indeed the team-talk continue on long into the Saturday night. Davenport, having obviously decided that some of the members needed extra coaching, continued the session until Sunday morning and the team retired to bed full of confidence and determination i.e. oblivious to the fact that there was soon going to be a match. This time, Milan batted first and scored 157 for 3, despite Hancock's hostile bowling. Sweetman reached 98 n.o. and Brooks retired (presumably bored) at 30. CERN needed a good start and there were 2 runs on the board after 2 balls. Evans then played a shot that he wished he could remember as much of as the night before and was caught at mid-on. Wickets continued to fall steadily but slowly before Davenport (36) and Allen managed to stay for a 64 stand. The match drew to an exciting close as Ackroyd and Allen, still there at 39, managed to keep out the last Milan overs and draw the match for us. So, the trophy goes to Milan and we have to wait for their visit next month to try and regain the pewterware. Next matches for CERN players: for U.K. XI at Stade de Richemont on Saturday, CERN vs. Basel at Preessin on Sunday.

SOFTBALL

Are you a summer student at CERN ?

Do you want to meet people ?

Do you like to spend your summer evenings outside in the sun ?

Then SOFTBALL might be the game for you !

This easy to learn, easy to play variation of baseball is played at CERN.

We have two teams in the Geneva league. The teams are mixed : there are eight male and two female players in each team. Apart from the games, once or twice a week, we have regular practices each FRIDAY starting at 18.00 at the CERN soccerfield close to the St. Genis roundabout (opposite the St. Genis Foyer).

See you on Friday !

For more information send a message to SOFTBALL@CERNVM or tel. 5959.

GAMES - BRIDGE SECTION

The results of last week's duplicate were :

1st. N/S M. Sigrist and G. Verdia 63%
1st. E/W O. Barring and P. Samson 58%
2nd. N/S B. Lacour and E. Lacour 55%
2nd E/W M. Kpenou and O. Webb 58%

Please send to D. Kemp/DD

.....
I will be playing **Wednesday 28 June**

VELO

Week-end dans le Jura des 24 et 25 juin.

Pour les inscrits (le délai limite était le 15 juin).

Pour les autres, possibilité de se retrouver le dimanche 25 juin, à l'Hôtel "Le Chamois" aux Rousses - au pied du téléski du Noirmont -, départ à 9h.00, pour 140 kms.

Semaine en Auvergne (du 2 au 9 septembre).

Au Village Vacances "RENOUVEAU" à Mauriac, au coeur de la Haute Auvergne dans le "Pays Vert" qui relie le Cantal à la Dordogne.

ATTENTION ! Délai d'inscription limite 30 JUIN 1989.

(acompte de CHF 150.- à verser impérativement avant cette date, auprès de la Secrétaire Nicole BOIMOND/SPS ☎ 4788).

MUSICLUB

Le MUSICLUB offre aux membres du personnel, à leur famille et amis :

MARDI 27 JUIN 1989, à 20h.30
Amphithéâtre du Bâtiment Principal

CONCERT DE FLUTE ET GUITARE

Radu COTUTIU
(Flûte traversière)

Juan-Manuel ROIG
(Guitare)

au programme :

G.Fr. HAENDEL
F. MOLINO
A. DIABELLI
P.A. GENIN
J. TURINA
P. DE SARASATE
M. RAVEL

CYCLE Peter YATES

Thursday/Jedi 29 June/juin, 20h.30
Main Auditorium / Amphithéâtre Bâtiment Principal

BULLITT

of/de P. YATES

with/avec **Steve McQueen, Jacqueline Bisset, Robert Vaughn**

A San Francisco police detective conceals the death of an underground witness in his charge, and goes after the killers himself.

Routine cop thriller with undoubted charisma, distinguished by a splendid car chase with takes one's mind off the tedious plot.

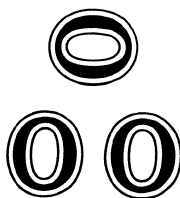

Technical credits first class.

Escroc sur le déclin, Johnny Ross est poursuivi par son frère, Pete, et les membres de leur organisation criminelle pour avoir détourné plusieurs millions de dollars de la caisse du "Syndicat".

Un grand classique des films policiers avec une célèbre poursuite en voiture dans les rues de San Francisco.

English dialogue with French and German sub-titles
Version originale Anglais sous titres Français/Allemand

Entrance /Entrée : CHF 6.-

Human Rights Committee June 16, 1989 of CERN Scientists (formerly Yuri Orlov Committee)

Here is the latest news concerning the Palestinian physicists for whom we circulated a petition earlier this year:

Letters appealing for the release of Aruri and other Palestinian physicists, written by Edward Witten, Freeman Dyson, and Robert Wilson, have appeared in the May issue of Physics Today, and an American petition similar to the one we circulated at Cern has collected over 1100 signatures of physicists, including 16 Nobel Prize winners.

In spite of these appeals, we have learned of the following recent developments:

Sami Kilani, professor of physics at al-Najah University in Nablus, was reportedly beaten for about ninety minutes on April 1 while in the custody of Israeli soldiers, then released and later arrested and put in administrative detention for six months. He is believed to be currently in the Ketsyot army detention facility in the Negev desert, a particularly unpleasant place where large numbers of Palestinians are held for long periods without judicial procedures. According to a colleague who was recently released from the same prison, Kilani is in good health and has recovered well from the wounds he sustained during the beating.

Taysir Aruri, a physicist at Birzeit University also in the occupied West Bank, is also in "administrative detention" without a trial. He has been served with a deportation order and appealed to the Israeli Supreme Court to withdraw the order. His hearing was held on June 1, but the decision of the court is not yet known. The Israeli Supreme Court has always upheld deportation orders in the past, even though they are in violation of international law concerning occupied territories, but the actual fate of Aruri is expected to be decided by the political authorities.

Nicola Dabit, also a physicist at Birzeit University but not mentioned in our petition, was arrested from his house in Ramallah on May 29. One of his colleagues of the University writes: "We were very disturbed that Nicola has been transferred to Petah Tiqva interrogation centre. Petah Tiqva is noted for harsh interrogation employing extended isolation, sleep deprivation, hooding, etc. To date 13 June no visit from his attorneys has been permitted. We think visit from his lawyers imperative and appreciate any intervention or protest on this matter."
