

Popular Sport

A banner number of CERN rookies also got playing time in Sunday's season opener, each contributing in her/his own way. Speculation has even begun as to the possibility of a second CERN team. Quarks and Leptons again? Could be.

Game Sunday

CERN's next game will be this Sunday 3 May, at Mission Field against the league champion Rowdies. Game time is 15:30. BP immediately following game 1. Maps to the field can be found via the home page.

Recruitment

It is always recruitment time for the Geneva Slow-Pitch League. Anyone interested in playing softball either with the CERN team or any of the other teams in the league is welcome to come out to any game or practice.

Softball Club

The CERN Softball Club plays slow-pitch softball from March to September against other teams from the Geneva area. For more information, contact us:
