Seminars

Vendredi, 11 novembre

17.00 précises

Université de Genève / Ecole de Physique
Auditoire B

"Matrice densité décrivant la propagation
thermique dans un cristal isolant"

Prof. C.P. Enz / Université de Genève

Tuesday, 15 November

16.30

Main Auditorium / CERN

"Recent evolution of fundamental theories"

This lecture, already given as a rapporteur talk at the Berkeley Conference, surveys for non-specialists the recent advances in quantum field and scattering theory.

M. Froissart / Centre d'Etudes Nucléaires
de Saclay

Thursday, 17 November

16.30

Main Auditorium / CERN

*COLLOQUIUM

"Genes, molecules and health"

R.L. Kirk / World Health Organization,
Geneva

*The CERN COLLOQUIA frequently cover questions outside the field of high energy physics ; the talks are given in English by leading experts. Sometimes the topic may also attract non-physicists. Therefore, the Colloquia are, in principle, open to anyone who is interested, including people from outside CERN (e.g. members of families and/or friends of CERN staff).

R. Hagedorn
