

Semaine/Week
21.11—26.11

Bulletin

Nouvelles officielles : pages 1 - 4 : Official News
Nouvelles de l'Association du Personnel : pages 1 - VI : Staff Association News

Seminars

Tuesday, 22 November
16.30
Main Auditorium / CERN

"Experimental Programme at the A.G.S."
R. Rau / Brookhaven National Laboratory

Wednesday, 23 November
14.30
Main Auditorium / CERN

" $2\pi^0$ decay of the long-lived K^0 "
J-M. Gaillard / CERN

Thursday, 24 November
16.30
Main Auditorium / CERN

*COLLOQUIUM
"Processing of optical information in the visual system of insects"
W. Reichardt / Max-Planck-Institut für Biologie, Tübingen

Abstract :

Physiological optics of the compound eye. Description of optical ganglia. Quantum sensitivity of the compound eye. Perception of movements by the central nervous system.

Thursday, 24 November
14.30
Council Chamber

MSC Technical Discussion
Report on a visit to Dubna
R. Hecken and E.G. Michaelis

* The CERN COLLOQUIA frequently cover questions outside the field of high energy physics ; the talks are given in English by leading experts. Sometimes the topic may also attract non physicists. Therefore, the Colloquia are, in principle, open to anyone who is interested, including people from outside CERN (e.g. members of families and/or friends of CERN staff).

R. Hagedorn
