While these lectures are prepared for the Summer Students who are at CERN this summer, they are open to anyone at CERN. Many of the lectures treat topics at a general level, such that they are a golden opportunity for a staff member to find out more about something outside his/her daily work. Whether you are new at CERN, or have been here a long time and wish to have a better understanding of what goes on, why not study the lecture programme carefully and mark dates in your diary to attend a few Summer Student Lectures!

All lectures are given in English and held in the Auditorium.

AUGMENTATION DE LA FRANCHISE DE L'ASSURANCE MALADIE

Comme déjà annoncé dans le Bulletin hebdomadaire No 28/90, la franchise annuelle est augmentée, en accord avec le CERN, de CHF 30.– à CHF 60.– avec effet rétroactif au 1er janvier 1990, pour tous les assurés ayant plus de 18 ans révolus.

Les personnes qui soumettront à partir de ce jour et pour la première fois des frais médicaux encourus pendant l'année 1990, se verront appliquer une franchise de CHF 60.–.

Quant aux personnes ayant déjà soumis des frais pour l'année 1990 et pour lesquels la franchise de CHF 30.– a été perçue, nous préleverons le solde (CHF 30.–) lors de la soumission des prochaines demandes de remboursement concernant l'année 1990.

Notre bureau au CERN est à votre disposition pour tous renseignements complémentaires.

HEALTH INSURANCE – INCREASE IN THE ANNUAL REIMBURSEMENT DEDUCTION

It was reported in Weekly Bulletin No. 28/90 that the amount deducted from reimbursements each year (the annual 'franchise') had been increased from 30 to 60 Swiss Francs, with the agreement of CERN, with retroactive effect from 1 January 1990, for all insured persons aged 18 and above.

Those who submit claims for the first time for treatment in 1990 will have 60 Francs deducted from their reimbursements.

Those who have already submitted a claim for treatment in 1990 from which a deduction of 30 Francs has been made will have the balance (30 Francs) deducted from their next claim for treatment in 1990.

Any enquiries on this subject should be addressed to our office in CERN.
