OFFICIAL NEWS

Members of the personnel shall be deemed to have taken note of the news under this heading

CERN COUNCIL - Sixty-first Session

At its sixty-first Session on 22 and 23 June 1978 the Cern Council made the following appointments or extensions of appointments :

MEMBERS OF THE DIRECTORATE

- Mr. M.C. Crowley-Milling
as Member of the Directorate for Accelerator Programmes for three years from 1 January 1979
- Professor S. Fubini
to continue as a Member of the Directorate for two years from 1 January 1979
- Professor V. Soergel
as a Member of the Directorate for three years from 1 March 1979
- Mr. G. Ullmann
as Member of the Directorate for Staff policy and Staff Planning for three years from 1 July 1978.
- Mr. Ullmann will continue as Leader of the Personnel Division until such time as a new Leader is proposed and appointed. Mr. R. Lévy-Mandel, Member of the Directorate for Site Management, will take over the Budget Planning responsibilities at Direc-

torate level presently carried out by Dr. H.-O. Wüster.

DIVISION LEADERS

- Dr. G. Brianti
as Leader of the SPS Division for three years from 1 January 1979.

Extensions

- Dr. A.J. Herz
as Leader of the Health and Safety Division for three years from 1 July 1978
- Mr. H. Laporte
as Leader of the Site and Buildings Division for three years from 1 January 1979
- Dr. A. Minten
as Leader of the Experimental Facilities Division for three years from 1 January 1979
- Mr. G.L. Munday
as Leader of the Proton Synchrotron Division for three years from 1 January 1979
- Dr. P. Zanella
as Leader fo the Data Handling Division for three years from 1 January 1979.

CERN EXECUTIVE BOARD

- At its 38th Meeting on 8 June 1978, the Executive Board authorized in principle the project "Anti-protons for the SPS" (or pp project). The individual parts of the project will be submitted for approval to the Executive Board at its July meeting.

The Board then heard reports on the Scientific Associates Budget for 1979 and on the meeting

of the Advisory Committee of CERN Users (ACCU) held on 8 May 1978. Lastly the Executive Board had a discussion on management decisions at CERN.

- At its 39th Meeting on 19 June 1978, the Executive Board discussed with the Chairmen of the Inter-Divisional Staff Review Panels the proposals for promotions made by the different Panels. The Executive Board agreed on the proposals with some modifications. The overall statistical result of the 1978 Review is as follows :

GRADE	2/3	4	5	6	7	8	9	10	totals
Number of Staff & Laboratory Staff (30 November 1977)	52	221	522	768	650	428	325	257	3223
Quota for Promotions	6	20	32	32	26	14	19	12	161
Proposals made by Divisions	10	13	45	49	29	26	29	23	224
Promotions agreed	10	12	34	33	25	15	20	12	161
Difference between promotions agreed and quota	+4	-8	+2	+1	-1	+1	+1	0	0

Out of quota promotions Agreed	1	-	-	13	2	4	3	-	23
--------------------------------	---	---	---	----	---	---	---	---	----

Senior Staff Review Senior staff in grades 11-14 (30 Nov. 1977) : 413
Promotions agreed : 9

Indefinite Appointments (except Research Staff)	Candidates	Yes	No	Pending	Declined, delayed at own request, resigned
Staff & Laboratory Staff in categories 2-5	175	156	4	4	11

INFORMATIONS GENERALES GENERAL INFORMATION

NEW PUBLICATION

"CERN - SOME IMPORTANT PHYSICS RESULTS"

Now available from the Editorial Section of the Publications Group is a new publication presenting some of the important results which have emerged from physics research at CERN. Rather than being aimed at a specialist audience, the chapters are written in a simplified way which attempts to bring out the significance of the results to a general reader with little specialist physics knowledge.

The topics selected from among the many experiments carried out at CERN over the years are :

- The neutrino reveals new behaviour of the weak force
- Looking at the muon to study the electromagnetic force
- Investigating the nucleus by making exotic atoms
- Analysing the structure of the proton
- Particle families
- If time could go backwards.

The chapters are presented in loose-leaf form in a special folder, so that new chapters can be added.

Publications Group

NOUVELLE PUBLICATION

"CERN - QUELQUES IMPORTANTS RESULTATS EN PHYSIQUE"

Une nouvelle publication est maintenant disponible auprès de la section rédactionnelle, Groupe des Publications. Elle présente quelques-uns des résultats importants de la recherche physique conduite au CERN. Les textes ne s'adressent pas seulement aux spécialistes en physique mais s'efforcent d'être simples afin d'intéresser une large audience.

Des nombreuses expériences réalisées avec les accélérateurs du CERN, nous avons extrait les sujets suivants :

- Le neutrino révèle un nouveau comportement de la force faible
- Mesure du muon pour l'étude de la force électromagnétique

- Etude du noyau par création d'atomes exotiques
- Analyse de la structure du proton
- Familles de particules
- Si le temps pouvait s'écouler en sens inverse.

Ces chapitres sont présentés sous forme de feuillets réunis dans un dossier, de sorte que d'autres chapitres pourront être ajoutés.

ANNUAL REPORT 1977

Copies are now available upon request from the Divisional Secretariats.

RAPPORT ANNUEL 1977

Des exemplaires du rapport annuel 1977 sont disponibles auprès des différents secrétariats de Divisions.

REINTEGRATION - Sécurité sociale française

La permanence mensuelle de la Sécurité sociale française au CERN aura lieu :

mardi 4 juillet de 13h00 à 15h00
salle de conférences No 2, bâtiment 5, 1er étage

Veuillez prendre rendez-vous au Secrétariat de la Section des Affaires sociales, int. 4201

A MESSAGE FROM THE LIBRARY

Before you leave on holiday, would you please return to the library any books which you have on loan. The book in your office may be just the one someone is looking for ! Thank you !
