seminars

CERN PARTICLE PHYSICS SEMINARS

Tuesday, May 14
16.30
Auditorium

"New results and prospects in experimental meson spectroscopy
(a review, including news from the Boston Conference)"
by V. Chaloupka / CERN

Tuesday, May 21
16.30
Auditorium

"New results on total cross-sections at NAL energies"
by R.S. Cool / The Rockefeller University

CERN TRACK CHAMBER COMMITTEE

Wednesday, May 15
09.30
Auditorium

1. Report on experiments in progress : phase-shift analysis of three-body systems / P. Litchfield;
2. Discussion on the transfer of experiment T209 (9 GeV/c K^-p) from BEBC to the HBC200;
3. Results from the 1973-survey on bubble chamber film analysis power in Europe.

CERN COMPUTER SEMINAR

Thursday, May 16
14.00
Auditorium

"European Informatics Network"
by P. Schicker / Eidgen. Techn. Hochschule, Zürich

PRESENTATION TECHNIQUE

Mardi 14 mai
de 09h.00 à 16h.30
Bus de démonstration
(Lab.II - près Magasins)

La maison ENTRELEC (F) présente sa gamme de fabrication dans le domaine de l'installation électrique :

- matériel de commutation et signalisation;
- matériel de raccordement;
- composants mosaïques pour tableau de commande et de distribution.

Langue : français.
