EXECUTIVE COMMITTEE

Minutes of the last meeting held on July 1st.

The committee commented on two draft Information Sheets : a) Home Station and Residence Category and b) Special Leave.

Reports were received on the recent meetings of the Finance Committee's Working Groups on Salaries and Pensions. For the moment these Groups are preserving the status quo.

Agenda of the forthcoming meeting, 8.7.74.

1. Employment Policy.
2. Report from FICSA.
3. Safety.
4. Any other business.

STAFF COUNCIL MEETING - 10.7.74

Agenda :

1. Employment Policy - the Association wishes to prepare statements of policy for all aspects of employment within the Organization.
2. Propositions for the Director General - the Association has been invited to prepare topics for direct discussions with the Director General.

Any staff member having contributions to make on either of these topics should contact his representative.

FOOTBALL

FINALE DE LA COUPE CERN : la rencontre a eu lieu samedi 29 juin. Sous l'autorité de M. Menetrey qui tenait le sifflet pour la dernière fois, le COURRIER a battu le NP/MS par 2 à 1 après prolongation.

A la suite de certaines rectifications, le classement définitif du Championnat CERN est le suivant :

Gr. 1 : 1. NP/MS 25 pts - 2. SP 1 24 pts - 3. At. SB 22 pts - 4. ISR 17 pts - 5. Booster 17 pts - 6. DD 12 pts.

Gr. 2 : 1. Courrier 21 pts - 2. Lab.II 19 pts - 3. 0.513 17 pts - 4. ex. SRC et TC 13 pts - 6. At. West 11 pts - 7. ex. ECS et SP 2 7 pts.

A la suite de ce classement, si le championnat conserve sa forme actuelle la saison prochaine, les équipes du Booster et du DD descendent en groupe

Deux et le Courrier et le Lab.II montent dans le groupe Un.

GROUP ENVIRONMENT

RECYCLING : the collection of used paper has always been practised on a small scale at CERN but it has now become of great importance. Please play your part. Don't throw away old catalogues, telephone directories, journals, memos, etc. (with the exception of carbons) but collect them in bundles in your office and take them in large metal containers which are available for this in main buildings.

Information can be obtained from "Gérants de Zones", Divisional Secretaries on the SB Recovery Section (tel. 2180).

A ton of paper recycled saves 13 trees. Recycling saves energy and reduces pollution. Paper supplies are becoming scarce and costs have doubled in six months. Recycling therefore not only saves materials but save money as well. The selling price of paper solvage covers the cost of its collection. In addition, each ton collected saves CERN SF 70.- spent burning rubbish. Thank you for your help.
