A SHAM CONSULTATION

At the meeting of the Standing Advisory Committee held on 6 October 1977, a first discussion took place on a draft Information Sheet entitled "Appeals in connection with the classification of posts and promotion". We had pointed out that the Sheet in question deprives the Joint Advisory Appeals Board of its meaning. It had been agreed to rediscuss the Sheet at the Committee's next meeting.

It therefore came as a great surprise to us when the Management issued this Sheet without having taken into account any of our comments and without making any amendments to the text.

The Staff Association can only deplore such an attitude on the part of the Management which nullifies the purpose of the Standing Advisory Committee—the supreme, statutory, consultative organ. Such tactics can only harm the atmosphere within the Organization.

In view of the difficulties which we have already experienced in establishing a dialogue in the initial discussions on the Review of the Staff Rules and Regulations, we wish to express our concern at the increasingly inflexible attitude adopted by the Management which is quite out of key with the openminded spirit which has always been displayed by the Staff Association.

DERNIERE MINUTE

SIMULACRE DE CONSULTATION

A la réunion du Comité Consultatif Permanent du 6 octobre 1977, un projet de fiche d'information "Recours en matière de classification de poste et d'avancement" a fait l'objet d'une première discussion. Nous avons fait remarquer que la fiche incriminée vidait de son sens la Commission statutaire de recours; il avait été convenu d'en rediscuter à la prochaine réunion.

Or, à notre grande surprise, la Direction a publié cette fiche sans avoir tenu aucun compte de nos remarques et sans avoir apporté aucune modification. L'Association déplore une telle attitude de la part de la Direction qui vide de son sens le Comité Consultatif Permanent, instance statutaire suprême de consultation. De telles pratiques sont de nature à aggraver le climat de travail au sein de l'Organisation.

Compte tenu des difficultés de dialogue déjà apparues lors des premières discussions sur la révision des Statut et Règlement du Personnel, nous nous inquiétons de l'intransigeance croissante de la Direction qui détonne face à l'esprit d'ouverture qu'a toujours manifesté l'Association.
