ACADEMIC TRAINING

Tuesday, May 12
11.00
Auditorium

BASIC COURSES

"Geodesy from Particle Accelerators to Satellites"
J. Gervaise

4th lecture : Artificial satellites for geodesy : - The figures of the earth from satellite data - A general system of terrestrial coordinates - The link between the different systems of coordinates - Satellite bearing isolated station - Earth movements.

(Ce cours est donné en français)

Pre-announcement

Wednesday, May 20
11.00
Auditorium

EXPERIMENTAL PHYSICS

"Spin formalisms"
S. U. Chung

ENSEIGNEMENT GENERAL

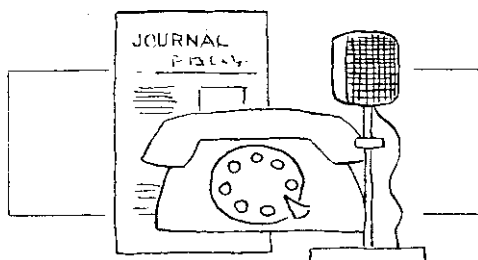

Mercredi 13 mai
17.35
Amphitheatre

"Calcul numérique élémentaire"
R. Carreras

4e leçon : Compléments, applications diverses, exercices de récapitulation.

Jeudi 14-mai
13.00
Amphithéâtre

SCIENCE POUR TOUS
Séance informelle
R. Carreras

cern information

CHILDREN AT CERN

As a general rule children, and young children in particular, are not allowed in the offices and laboratories on the site; the canteen, bank, post office and travel agency are exceptions to this general rule, but even in these areas we must ask parents to keep their children, for their own safety, under strict supervision. Road traffic, lifts and swing doors constitute particular dangers. When circumstances make it absolutely unavoidable that children are brought into offices and laboratories, the need for supervision is all the more imperative.

G.H. Hampton - Director of Administration

OBJETS TROUVES

Le 1.4.70, un collier trouvé parking Labo. 4,
Le 2.4.70, une gourmette fillette marquée "Nathalie", trouvée sur le parking du Labo.4-,
Le 3.4.70, une somme d'argent trouvée devant le PIO,
Le 29.4.70, un étui à pipe trouvé sur le site.
