

CLUBS

TENNIS DE TABLE

Pour commencer la saison de tennis de table nous organisons un tournoi pour toutes les classes dans notre local restaurant No2 (Tortella).

Nous invitons les joueurs non classés (débutants) et :

de la Classe D
lundi 11/9 à 17h15

de la Classe C
mardi 12/9 à 17h15

de la Classe B
vendredi 15/9 à 17h15

Selon le nombre d'inscriptions nous commencerons par poules et nous terminerons par élimination directe. Les quatre meilleurs joueurs de chaque classe auront le droit de jouer dans la classe supérieure.

De magnifiques coupes seront remises aux deux meilleurs joueurs de chaque classe.

Frais de participation : Frs 3.-

Il n'y aura pas de frais de participation pour les personnes qui régleront leur cotisation pour la saison 1978/1979 et dont le montant est fixé à Frs 30.-

Coupon d'inscription à renvoyer au plus tard le 8/9
à M. G.C. SCHNEIDER/PS (Tel 4109)

Classement

Je participerai au tournoi : (D.C.B.)

CRICKET

27/8/78 at CERN v. Indian XI
CERN 63 all out, Indian XI 34 all out. CERN won by 29 runs.

This weekend we have the visit of British Airways (Manchester) who will play us on Saturday and Sunday at CERN. The starting times are 13.30 on Saturday 2nd and 11.00 on Sunday 3rd.
Further information from W. Blair (4473) or C.Onions (5039).

RUGBY

Le samedi 2 septembre nous aurons un rallye - pique-nique. Vous pouvez vous inscrire auprès de G.VERNY/HS au 3247 ou de J. MORAND/FI au 2249.

Le dimanche 3 septembre match au CERN à 15h suisse contre VIUZ-en-SALLAZ.

CINE CLUB

The 1978/1979 season will start on 11th September when we are pleased to announce a German Film Festival, with films old and new. These films have been kindly lent to us by the German Consulate and we are extremely grateful to them for this gesture. The full programme is given below. All films start at 20.30 Swiss time in the Auditorium and entry is FREE.

GERMAN FILM FESTIVAL

The Golden Age and the New Cinema
11 September - 13 October

September :

11 - Das Kabinett des Doktor Caligari (1920)

R Wiene. v.o.

12 - Mme Dubarry (1919) E Lubitsch. stumm

13 - Die Puppe (1919) E Lubitsch. stumm

15 - Dr Mabuse der Spieler (1922) F Lang. v.o.
s.t. angl.

18 - Die Büchse der Pandora (1928) G W Pabst.
v.o. s.t. angl.

19 - Geheimnisse einer Seele (1926) G W Pabst. stumm

21 - Der Händler der vier Jahreszeiten (1973)

R W Fassbinder. v.o. s.t. angl.

22 - Aguirre, der Zorn Gottes (1972) W Herzog.

October :

2 - Das Kabinett des Doktor Caligari (1920)

R Wiene. v.o.

3 - Die Puppe (1919) E Lubitsch. stumm

5 - Dr Mabuse der Spieler (1922) F Lang. v.o.
s.t. angl.

6 - Geheimnisse einer Seele (1926) G W Pabst
v.o. s.t. angl.

9 - Die Büchse der Pandora (1928) G W Pabst
v.o. s.t. angl.

10 - Der Händler der vier Jahreszeiten (1973)
R W Fassbinder. v.o. s.t. angl.

12 - Auch Zwerge haben klein angefangen (1969)
W Herzog. v.o. s.t. angl.

13 - Jagdszenen aus Niederbayern (1968)
P Fleischmann. v.o. s.t. fr.

CERN WOMEN'S CLUB

Once a year, before the start of our activities after the long summer sleep, we try to make ourselves known to all those women (Cern-staff and wives of CERN-staff), who have not yet been able to get in contact with our club, but who might be interested to know more about us.

Within "our family" we do lots of things in smaller or bigger groups together in a friendly and informal atmosphere, such as :

Arts and Crafts : (resp. Anna Maria Kracht - tel. 023 41-03-41)

swing
nordic embroidery
crochet
painting on china
flower arranging
enamel
drawing
beauty care

Sports : (resp. Liesel van Holten - tel. 98-20-29)
tennis

badminton
keep-fit
walks/cross country ski
yoga

Conversation :

English and French
German

Discussion : (on books or topical news items)

Social activities :

bridge
chess

In addition there is a monthly "coffee morning", and 3 times a year an excursion and a soiree with plenty of opportunities to meet and make friends. Our members get regular information about all that is going on.

The membership fee is Frs 15.- a year for CERN-personnel or wives and Frs 30.- for friends.

If you wish to join or to receive more detailed information, please fill in the slip below, or even better, come and meet us between 9-11 a.m. on our first coffee morning (with possibilities for enrolment), Sept 12th in our clubroom in the Tortella restaurant building.

To return to Mrs. Liesel van Holten, 2 ch. de Tavernay, 1218 Grand Saconnex (Tel. 98.20.29)

I would like to become a member of the Club/
have a detailed programme of all the Club's activities

SKI CLUB

La saison de ski 78/79 approche à grands-pas. Pour vous aider à obtenir une forme de "Super", le Club met à votre disposition quelques chefs de course qui vous permettront de découvrir quelques beaux sites entourant Genève.

Ces courses sont toujours d'un caractère un peu familial. Elles se déroulent sur une journée, le dimanche de préférence.

Pour ces sorties il faut prévoir un pique-nique, de bonnes chaussures de marche, et des vêtements de protection contre la pluie et le froid.

La première course aura lieu dimanche 3 septembre 1978 aux Lacs Jovets via les Contamines. Merveilleux point de vue sur la chaîne du Mont-Blanc.

Rendez-vous sur le parking MIGROS à Meyrin à 7h30 (suisse).

Responsables de la Course : Mlle M. LEWIS
Mr. R. GAPIHAN

Suite du programme :

10/9/78 - Les Rochers de Naye Via Montreux
(F. STREUN)

17/9/78 - Pique-Nique du SC CERN
La Vasseroide (Jura) - (F. STREUN)

24/9/78 - La Tournette - (R. GAPIHAN)

30/9-1/10/78 - Week-end en Valais (R. HUGUENIN)

8/10/78 - Le Môle - (R. OBERLI)

22/10/78 - Le Vuache - (P. TRANCHANT)

5/11/78 - Crêtes du Jura - (P. TRANCHANT)

POUR INFORMATION

OMS 4ème GRAND PRIX CYCLISTE

Dimanche 24 septembre 1978 à 9h00

Réservé aux Fonctionnaires Internationaux non-licenciés.

Départ et arrivée devant le siège de l'OMS - Avenue Appia.

Challenge Inter-Organisations.

Renseignements et Inscriptions :

M. CERUTTI OMS Tél. 346061/int.2399

STAFF ASSOCIATION / CERN

THURSDAY 14 SEPTEMBER 1978 at 20.30

in the Auditorium, Main Building

Professor François GROS

RECENT PROGRESS IN THE FIELD OF GENETICS

Born in Paris on 24 April 1925, Professor François GROS studied at the Lycée Pasteur in Neuilly-sur-Seine and in the science faculties of Toulouse and Paris, obtaining his DSC in 1953. After a Rockefeller Fellowship at the bacteriological laboratory of the University of Illinois and the Rockefeller Institute, from 1953 to 1955, he was attached to the National Centre for Scientific Research (CNRS) and continued his career in science there in successive posts, finally as director of research from 1962 to 1968.

He was appointed head of a service at the Institute of Physico-Chemical Biology in 1963, and in 1968 head of a service at the Institute of Molecular Biology. Professorships followed at the Pasteur Institute in 1972, as head of the biochemistry service, and at the Collège de France in 1973 (chair of cellular biochemistry), and he has been Director-General of the Pasteur Institute since 1976.

Professor GROS has had a variety of functions and responsibilities in the advisory bodies on research teaching : as member of the molecular biology section of the CNRS (1963) and of the DGRST, member of the Atomic Energy Commission (CEA) (1965) and of the International Office for Biophysics (1966), President of the molecular biology Committee of the CNRS (1971) member of the Scientific Council of EMBO (1972).

He is the author of numerous publications, in particular on research into the role of the nucleic acids and the physiology of genes and on the identification and study of the messenger nucleic acids in bacteria. He has received a number of honours and awards for science, both French and foreign : the Rothschild Batsheba Prize, the Mayer Prize of the Biological Chemistry Society, the gold medal of the Papal Academy of Sciences, Chevalier of the Order of Merit, the Lacassagne Foundation Prize, Chevalier of the Legion of Honour.

Progress in molecular biology, and especially in genetics, is currently the subject of lively debate, and biologists have begun to look beyond their research into the consequences it may have. It was at the Gordon Conference on nucleic acids, held in New Hampshire in 1973, that this discussion opened.

Two speakers there drew attention to the responsibilities of science where genetic manipulation in vitro is concerned. In the same year a first letter was published urging the setting up of a study group. The danger stressed by certain specialists was that new organisms might be created or selected, or that fragments of DNA might be propagated which contained carcinogenic sequences and could thus be potentially dangerous.

In 1974 research scientists recommended a moratorium on this type of research. The proposal led to the meeting in Alisomar, California, in February 1975, where it was decided that research could be resumed but with enhanced safety precautions. Following this, a number of laboratories were built for research work in this field, notably one for the genetic unit of the Pasteur Institute.

Despite this caution, many interesting results have accrued recently. The insulin gene, for example, has been isolated and integrated in a bacterium, which should at last make it possible to manufacture human insulin in quantity, holding out great hopes for diabetes sufferers.

The talk will be given in French, with simultaneous interpretation into English.
