PHYSICS I - ELECTRONICS EXPERIMENTS COMMITTEE

Monday, May 7
14.30
Auditorium

Open Session

1. Proposal for a measurement of the helicity amplitudes for associated production $\pi^- p \rightarrow K^0 \Lambda$, by CERN - ETH - Helsinki - Imperial College London - Southampton University, PH I/COM-73/16; presented by M. Letheren.
2. Status report on experiment P9 on hypernuclear spectroscopy, by Torino Group (Bonazzola et al.); presented by T. Bressani.

Tuesday, May 8
09.00
NP Conference Room

Closed Session

•

CERN PARTICLE PHYSICS SEMINARS

Tuesday, May 8
16.30
Auditorium

" π^0 production at the ISR, single particles and correlations"
K.R. Schubert / University of Hamburg

Tuesday, May 15
16.30
Auditorium

"Physics with electron - proton colliding beams"
B. Wiik / DESY

•

PRESENTATIONS TECHNIQUES TECHNICAL PRESENTATIONS

Mardi 8 mai
de 10h.00 à 16h.00
Salle de Conference TC-L
(Bât.17 - 1er étage)

La société des machines cryogéniques L'AIR LIQUIDE et PHILIPS (F) expose :
- des matériels de stockage,
- des matériels de transfert,
- des cryostats,
- des matériels de thermométrie,
- des cryopompes.

Langue : français.

Mercredi 9 mai
de 09h.00 à 16h.00
Parking PTT
(Bât. ADM)

La maison WALLACH (CH), représentant FACOM (F), expose son programme d'outillage (clés, etc.)

Langues: français, allemand.

Friday, May 11th
9.30 to 12.00 a.m.
ISR Conference Room
(Bldg. 30 - 7th floor)

BECKMAN (UK), represented by MEGEX (CH) :
seminar on thickfilm micro-circuits and wide application in industry.
Language : English

Renseignement/Information :
M. Diraison - 4585
