

LEGAL ADVICE

"We have the pleasure in informing you that the Department of Administration has agreed that in private cases not involving the Organization itself, a service of legal advice to the staff would be provided by the Legal Service of Finance Division.

Without *engaging* the Organization this Service would advise staff members as to how to deal with their legal problems but would in no way substitute for the services of a lawyer in the execution of a particular case.

After having seen first the case, either the Welfare Service or the Staff Association will contact the Legal Service which will then make the suitable appointments.

The persons to contact are as follows :

Welfare Service : Mr» Blackwell, through the Secretariat, extension 2468

Staff Association : Miss S. Buckland, Secretariat Staff Association, extension 3337/4352

Mr* J. Joubay, extension 3752 or 4111*

MUTUAL AID MP

In March 1968, in response to the many requests made by CERN staff when returning their questionnaires on CERN Welfare needs, the Staff Association set up a Mutual Aid Fond. The purpose of this Fund is to give assistance to members who are in financial difficulty.

Following this, the CERN Administration stated that it wished to support the Fund and it is now contributing to it.

The Management Committee of the Mutual Aid Fund consists of seven members. The present members were appointed provisionally by the Staff Association, and will remain in office until the next Annual General Assembly, when they will be replaced by elected representatives of the staff.

All persons wishing to submit applications for membership of the Management Committee of the Mutual Aid Fund are requested to notify the Secretariat of the Staff Association before 25 February 1969.

In accordance with Article 5 of the General Regulations of the Fund, the list of candidates will be submitted for approval by the Standing Advisory Committee at its next meeting.

Copies of the Regulations can be obtained from the Secretariat of the Association, or from the Welfare Section.

SCHOOL PROBLEMS

The education of children who move from one country to another is of vital importance to many people at CERN.

The most recent (and for us probably the best yet) solution to the problem, the "International Baccalauréat", has so far been described only briefly in a few documents, none of wide circulation. But two other solutions, "European Schools" and "International Schools" are described in detail in the book "Education sans frontières" (French version only) now on sale at CERNSHOP.
