HUMAN RIGHTS AND WRONGS AMNESTY INTERNATIONAL

By Martin ENNALS - Secretary General

Amnesty International is a world-wide movement which works for the release of those who are subject to imprisonment, torture or other forms of punishment on the grounds of their beliefs, religion, colour or race. It campaigns for the respect of basic human freedoms as defined in the Universal Declaration of Human Rights, and for the abolition of torture and the death penalty. Its work is conducted with strict impartiality, each of its constituent groups treating the cases of three prisoners, one each from the East, the West and the Third World. Only those prisoners who have neither used nor advocated violence are adopted.

Amnesty International, established in 65 countries, and with a membership approaching 100 000 has declared 1977 to be Prisoner of Conscience Year, in an effort to acquaint public opinion with the vast problems of the violation of human rights and the spread of torture.

Born July 27th 1927 in Walsall, England. Studied at London School of Economics, London University. Bachelor of Science (Economics) degree in international relations and international law. Took prominent part in formation of United Nations Student Association and International Student Movement for the United Nations, was Assistant Secretary of National Union of Students in United Kingdom and Vice President of Students' Union at London School of Economics. Joined UNESCO 1950 as officer responsible for Gift Coupon Scheme for aid to developing countries. Appointed to administer the UNESCO Arab States Fundamental Education Centre in Egypt 1954. Returned to Paris 1956 where he was attached to Office of Director General of UNESCO. Left UNESCO in 1959 to become General Secretary of the British National Council for Civil Liberties (NCCCL) until 1966. During this period established refugee and community projects in Bechuanaland (now Botswana) and travelled widely in Southern and East Africa. Organiser of the Boycott Movement (of South African exports), later to become the Anti-Apartheid Movement. In 1966 began full-time work in race relations in Britain joining government-sponsored National Committee for Commonwealth Immigrants. Resigned in protest against Labour Government's 1968 Commonwealth Immigrants Act which was designed to stop British subjects in East Africa from exercising their legal right to enter United Kingdom. In 1968 spent three months in East Africa studying plight of East African Asians and published report and statistical study on subject. Appointed Secretary General of Amnesty International in July 1968. Married with two children.
