

Selected topics of the Vienna Wire Chamber Conference 1992 will be presented. The covered topics are :

- *use of photo-sensitive chambers in biology and particle identification (Ring Image Cherenkov counters),*
- *new developments in gas microstrip chambers,*
- *fast chamber gases and new results from noble liquid calorimetry.*

Mercredi 11 mars

PRESENTATION TECHNIQUE

de 09.00 à 16.00 h – bât. 865/2-A04

Yokogawa France SA (D/J/NL) : instrumentation, contrôle de procédé et analyse dans le domaine des gaz

Langue : français

Renseignements: M. Diraison / FI / 4585

Wednesday 11 March

COMPUTING SEMINAR

at 16.00 hrs – CN Auditorium
bldg 31/3-005

An innocent (well, almost) in the land of C++
by David R. MYERS / CERN-ECP

Organizer : J.P. Matheys / ECP /

EDUCATION SERVICES / SERVICES EDUCATIFS

The 1992 CERN Training Plan, prepared by the Joint Training Board, was approved by the Management Board in December 1991. The final text is now available, including the comments by the Director-General as well as the recommendations for 1992.

Copies of this document (which is available in English and in French) are being distributed to all group and section leaders via their Divisional Training Officer.

Anyone interested may obtain a copy :

- at your Divisional Secretariat
- from Education Services, 3674 (mornings only).

Le Plan de Formation 1992 établi par la Commission Paritaire de Formation et de Perfectionnement a été approuvé par le Comité de Management en décembre 1991. Ce document comprend les commentaires du Directeur général et les recommandations pour 1992.

Tous les chefs de groupe et chefs de section recevront un exemplaire du Plan de Formation (disponible en français et en anglais) par l'intermédiaire du délégué à la formation de leur division.

Toute personne intéressée peut obtenir une copie :

- auprès des secrétariats de Division
- en téléphonant aux Services Educatifs, 3674 (le matin).

OPEN UNIVERSITY INFORMATION MEETING

This is to inform all interested that there will be an open information session the Open University, which will be held on

**Wednesday 4 March at 19.00 hrs
at the International School of Geneva,
62, route de Chêne**

The contact person in the Geneva area for the Open University is :

Mrs Anne Williams
12, Ch. des Rupières
1257 Croix-de-Rozon
Tel. 771 38 23

W. Blair / Education Services

INFORMATIONS GENERALES GENERAL INFORMATION

COGNE MEETING OF THE SPS AND LEAR COMMITTEE

A special meeting of the SPSLC will be held in Cogne/ Val d'Aosta from 14 to 19 September 1992.

The purpose of the meeting is to review present and near-future activities at the SPS and LEAR, and to consider possibilities and options for the longer-term future.

The Chairman would like the groups working at the SPS and LEAR, or groups which have in mind to submit proposals, to forward a short report on their plans. It should be understood that these prospective ideas would not be regarded as binding for the future plans of the group, but they will be extremely useful to help orient the SPS and LEAR programmes and to guide policy. In this respect, speculative and novel proposals will be particularly welcome.

Interested physicists should contact their spokesman.

SPSLC Secretariat / 4270 / SPSC@CERNVM

FOR INFORMATION

HORIZON

BBC2's highly praised science magazine is broadcasting a programme :

AN EXPENSIVE THEOLOGY on 2 March at 20.10 hrs

The programme deals directly with the usefulness of particle physics and future funding. A large part of the programme was filmed at CERN.
