COMITE CONSULTATIF PERMANENT

La première partie de la réunion d'avril du Comité précité s'est tenue le jeudi 6 avril 1978.

Les documents (première série) qui seront présentés au Groupe de travail du Comité des Finances lors de sa prochaine réunion en juin ont été examinés en même temps qu'un document daté du 28 mars 1978, établi par l'Association du personnel sous le titre "Révision des Statut et Règlement du personnel". Une fois définitivement arrêté le texte de ces documents, des exemplaires seront mis à disposition pour consultation dans les Divisions et au Secrétariat de l'Association du personnel.

Le Groupe de travail chargé d'étudier la question des contrats de main-d'oeuvre temporaire a établi un rapport qui sera présenté à la Commission Exécutive lors de sa prochaine réunion et examiné au Comité Consultatif permanent le 19 avril.

Les plans d'un nouveau bâtiment destiné à améliorer l'installation du Poste des pompiers ont été établis et le projet sera soumis à la Commission Exécutive lors d'une prochaine réunion.

STATUT ET REGLEMENT DU PERSONNEL - FICHES D'INFORMATION

Un état récapitulatif des fiches d'information en service au 1er AVRIL 1978 est disponible auprès de VOTRE SECRETARIAT DE DIVISION.

STANDING ADVISORY COMMITTEE

The first part of the April meeting of the above Committee was held on Thursday 6 April 1978.

The papers to be presented at the next meeting of the Finance Committee Working Group in June (first series) were discussed, in conjunction with a paper prepared by the Staff Association, dated 28 March 1978 "Révision des Statut et Règlement du Personnel". Once the text of the papers has been finalized, copies will be made available for consultation in Divisions, and the Staff Association Office.

The Working Group studying the question of Contract Labour has prepared a report which will be presented to the next Executive Board and discussed at the Standing Advisory Committee on 19 April.

Plans for a new building, designed to improve the accommodation available to the Fire Brigade, have been drawn up, and the project will be presented to a future Executive Board.

STAFF RULES AND REGULATIONS - INFORMATION SHEETS

A list of Information Sheets in force as of 1st APRIL 1978 is available at YOUR DIVISION SECRETARIAT.

"Systematic study of the production of
($K\pi$)⁺ and ($K\bar{K}$)⁺ resonances"

by C. Nef / University of Geneva

Abstract: High statistics data have been taken with a two-arm spectrometer at 10 GeV/c, and are being taken at 50 GeV/c. These data allow the study of the production amplitudes as a function of mass, of momentum-transfer, of energy and of beam polarity.

We present results obtained at 10 GeV/c on: i) high mass $J^P = 3^-$ and 4^+ resonances; ii) production mechanism of the 1^- and 2^+ states, in particular the role of pomeron exchange; and iii) a possible $\delta'(1300)$ state under the A_2 .

"High energy phenomena on the solar surface"

by C. Chiuderi / Institute of Astronomy,
Florence

Abstract: The outer portion of the sun is known to be the seat of several high-energy phenomena. This complex activity is observed over the whole electromagnetic spectrum, from radio wavelengths to gamma rays. Fluxes of energetic particles are also associated with the above activity. Our present status of knowledge and understanding of solar high energy phenomena is reviewed, with special emphasis on solar flares. The relevance of solar flare studies to the rest of astrophysics and to laboratory plasma experiments is also discussed.

(*) Note : Those attending this seminar are cordially invited to the Salle des Pas Perdus (just outside the Council Chamber) at 15.30 hrs to meet the speaker and for informal discussion. Tea and coffee will be provided.
