Semaine/Week
16.1 – 21.1

Bulletin

Nouvelles officielles : pages 1 - 4 : Official News
Nouvelles de l'Association du Personnel : pages I - IV : Staff Association News

Seminars

Monday, 16 January

11.15

Université de Genève/Ecole de Physique
Auditoire B

"Nuclear Magnetic Resonance in Liquid Metals"

Prof. E.F.H. Seymour / University of Warwick,
Coventry GB

Tuesday, 17 January

16.30

Main Auditorium / CERN

"Coherent Photon Production at high energies"

U. Timm / DESY, Hamburg

Thursday, 19 January

16.30

Main Auditorium / CERN

*COLLOQUIUM

"The North Sea Exploration for Oil and Natural Gas"

J. Rennard Dean / Geneva - Leeds University

Abstract : Since the remarkable discovery, in 1959, of the enormous reserves of natural gas (methane) at Slochteren in the Netherlands, the exploration for oil and natural gas below the North Sea has proceeded at an ever-increasing pace. The geological, engineering and legal problems involved in this exploration are of special interest at the present time.

Jeudi, 19 janvier

17.15

Université de Genève/Ecole de Physique
Baraque C, salle 2

SEMINAIRE D'ELECTRONIQUE

"Transducteurs Ultrasoniques"

Comparaison entre systèmes magnétostrictifs et piézoélectriques

A. Kunz

*The CERN COLLOQUIA frequently cover questions outside the field of high energy physics; the talks are given in English by leading experts. Sometimes the topic may also attract non-physicists. Therefore, the Colloquia are, in principle, open to anyone who is interested, including people from outside CERN (e.g. members of families and/or friends of CERN staff).

R. Hagedorn
