

FRENCH COURSES

Your attention please !

mid-April - end of June

NEXT SESSION OF THE FRENCH COURSES

The application forms are available as from now in building 54 - Ground Floor (Education Services)

The French teachers are at your disposal :
Mondays and Fridays from 2 pm to 5 pm
Tuesdays and Wednesdays from 2 pm to 4.30 pm in building 54 Room-001 or Room R-031 (tel. 3128 - 4476)

The secretariat is open all afternoons from 1.45 pm to 5.45 pm (tel. 3127)

INFORMATIONS

GENERALES

GENERAL INFORMATION

NOTICE TO AUTHORS OF CERN PUBLICATIONS

Since October 1987 the Scientific Information Service has stopped purchasing reprints of CERN publications. The phasing out of the reprint exercise has now entered the final stage. Therefore, all authors of CERN publications for which SIS has purchased reprints in the past (received prior to November 1987) are kindly requested to arrange for their remaining reprints to be picked up at SIS as soon as possible.

Please contact Miss Lysiane Besson, tel. 2432.

Scientific Information Service

HOMAGE

It was with great sadness that the many friends, colleagues, and collaborators of Dr Colin Fisher from the Rutherford Appleton Laboratory learned of his sudden and tragic death. Dr Fisher has played an important role in many activities at CERN, and his contributions and leadership will be greatly missed.

F. Dydak
EP Division Leader

PERDU !

... un stylo plume, marque 'Mont-Blanc', couleur gris et or, le 8 février, probablement aux environs du bât. 513. J'y tiens beaucoup, quelqu'un l'aurait-il trouvé ?

L. Esteveny / DD
Tél. 4972

PC SHOP

The OCS group (Office Computing Systems) of the MIS unit (Management Information Systems) has opened a set of services for personal computers of the IBM compatible type.

There is a PC demo room, building 513, R-048, where users can look at various PC equipment and try out software packages.

Orders for recommended standard PCs, peripheral equipment and software will be taken there, but users can also order from J. Bourges / DD-OCS / 4918 (if absent, J.L. Penaud / 4982), BOURGES@CERNVM.

PC software can be obtained there immediately if it is in store.

On a trial basis, a contact service for used equipment is also available through J. Bourges, users should contact him directly. Used equipment must already belong to CERN and must be reused only for applications at CERN.

PUBLIC DESK-TOP PUBLISHING CENTRES

The same room, building 513 / R-048, holds two DTP (desk-top publishing) systems for public use. Previously prepared documents can be composed there, using page-layout software to such as PageMaker, Ventura, Word, Paint, etc.

One system is based on an IBM PC compatible Olivetti (an 80386 machine) with a scanner and a laser printer. Previously prepared documents can be read from either 3.5 inch diskettes or 5.25 inch floppies.

At your first use, please contact M. Sheehan / 2956, MASH@CERNVM

Another system is based on a Macintosh (model II), with a scanner and a laser printer. It has one 3.5 inch diskette drive.
