ORDINARY MEETING OF THE STAFF COUNCIL, 13 JANUARY 1998

This meeting, the four hundredth of the Staff Council, opened at 3.10 p.m. under the chairmanship of Pierre Lazeyras, who had chaired the first meeting of the Staff Council in 1965.

Michel Vitasse, President of the Staff Association, on behalf of the Executive Committee, wished the Members of the Council a good year.

With the postponement to the next meeting of the approval of the minutes of the previous meeting, the draft agenda was adopted.

Activities of the Executive Committee

The minutes of the various official meetings at the end of the year having been already published in the Weekly Bulletin, the President of the Staff Council passed directly to a briefing of the new series of public meetings in the Divisions, which would take place at the end of January - beginning of February.

The agenda will be in two parts:

- a review of the present situation and the aims of the Staff Association for this year, entitled, "Together, let's prepare our future"
- a presentation of a particular point of our social security, "insurance for long-term care". Long-term care is care provided to persons who are unable to attend to the essential activities of their daily life. It is a major problem, both now and in the future for our society for which we must find rapidly a practical solution.

The proposal, which had been drawn up by an internal working group of the Association, was unanimously approved by the Staff Council. It will now be presented to the staff.

Copies of the overheads will be available at the end of each of the public meetings, the timetable of which is repeated in this bulletin. The Association strongly encourages everyone to go to one of these meetings, both to listen and to express their views or suggestions.

At the end of the meeting, the Chairman of the meeting, Pierre Lazeyras, described some aspects of life at CERN at the time of the first Staff Council; a different epoch, different problems!

The meeting closed at 5.15 p.m.. It was followed by a small reception to mark this four hundredth meeting.
