SCIENCE POUR TOUS

Qu'est-ce qui reste quand on enlève tout ?

par Rafel Carreras

Cet exposé fait partie d'une série destinée plus particulièrement aux personnes n'ayant pas de formation scientifique.

SEMINAR

Vendredi 15 novembre

17.00 précises

Auditoire B, Ecole de Physique (Boulevard d'Yvoy)

"Le modèle de Pauli - Fierz relatif à la catastrophe infrarouge"

Dr. Ph. Blanchard / ETH Zurich

ABSTRACT OF REPORT
NPA/Int. 68-31

A CONTRIBUTION TO THE INTERNATIONAL SEMINAR ON THE EDUCATION OF PHYSICISTS FOR WORK IN INDUSTRY, Eindhoven, 2 - 7 Dec. 1968, by P. de Meo

After a preliminary description of the functions and attributes of a physicist in industry, the paper points out the professional development needs of the researcher. It also specifies some of the major problems related to the education of a physicist, and provides a description of a suitable environment for a research laboratory showing which are the main requirements as far as motivation, communications and management are concerned. The final part contains conclusions and proposals concerning both University and Industry.

Avis officiels**Official Notices**ASSURANCE MALADIEIMPORTANT

Pour des motifs administratifs, la CAISSE MALADIE SUISSE D'ENTREPRISES désire être en possession avant le 15 décembre au plus tard de toutes les factures établies en 1967 et susceptibles d'être remboursées par elle.

En conséquence, nous vous prions instamment de prendre note du délai qui nous est imparti et de nous faire parvenir vos factures, acquittées ou non, avant la date sus-mentionnée.

HEALTH INSURANCEIMPORTANT

For administrative reasons, the CAISSE MALADIE SUISSE D'ENTREPRISES would like to receive by the 15th December at the latest all bills for 1967 which are eligible for reimbursement. Please note this date and let us have your bills, receipted or not, before then.

OPEN WORKSHOP IN PS
ZONE

With the agreement of the Mechanical Workshops Coordination Committee, the "Blue Zone", of the Open Workshop is closed. The attendance, outside working hours, has proved too low to justify the maintenance of the present equipment. The "Green Zone", which is under supervision, remains. It will be open, from Monday to Friday, between 7.30 and 17.30, under the usual conditions. Outside working hours, work will be possible, under supervision :

- a) by preliminary arrangement with Mr. Jeanrenaud,
- b) in case of emergency, by contacting the firemen.
