RECHERCHE TELEPHONIQUE

CURRAT André : N° 761.

JOB OPPORTUNITY

The Physics Department at Northeastern University has several openings in experimental particle physics. A senior position, for a person of outstanding abilities, can be created. Such a person could undertake to start his own research group or work with the existing groups. One or more junior faculty positions exist. At least one of these is a tenure track position. One year appointments are also available. A vacancy exists for at least one postdoctoral research associate. The experimental elementary particle groups have 8 faculty and 4 post-docs. They are involved at SLAC on the PEP-6 detector (MAC) and at Fermilab.

Interested candidates are invited to contact Prof. Roy Weinstein, Dept. of Physics, Northeastern University, 360 Huntington Avenue, BOSTON, MA 02115, USA.
