

# INFORMATIONS GENERALES GENERAL INFORMATION

## INFORMATIONS RELATIVES AUX EXPOSITIONS

Une nouvelle liste de présentations, foires et expositions est à disposition dans les secrétariats de division.

Objectif : permettre d'établir et de maintenir le contact avec les différentes branches de l'industrie, des Etats membres, liées à l'activité du CERN.

M. Diraison / FI-A  
Tél. 4585

## EXHIBITION INFORMATION

A new list of trade shows, fairs and exhibitions is available at divisional secretariats.

Aim: to enable the setting up of permanent contacts with different sectors of Member States' industry capable of meeting CERN's requirements.

M. Diraison / FI-A  
Tel. 4585

Jeu­di 24 mars à 14.00 heures – Amphithéâtre

PROJECTION DE  
"L'ARGENT ET LA SCIENCE :  
LE PRIX D'UNE PARTICULE"  
DE L'EMISSION ARCHIMEDE  
(diffusée le 7 mars sur ARTE)

"Cinq cent dollars en 1932, onze milliards de dollars en 1993, en quelques décennies le coût des accélérateurs de particules, machines privilégiées pour faire découvrir les secrets de la matière, a grimpé de façon vertigineuse au fur et à mesure que leur taille grandissait, trop vite peut-être..."

Le SSC américain a été brusquement stoppé par le Congrès en octobre 1993, la facture s'élevant déjà à 2 milliards de dollars.

Serait-ce la fin de ce qu'on appelle la "big science"? De grands témoins ont répondu à *Archimède* : le Directeur général du CERN, Christopher Llewellyn Smith, les célèbres prix Nobel Steven Weinberg et Carlo Rubbia, Bjorn Wiik, Directeur du laboratoire DESY, à Hambourg."

Thursday 24 March at 14.00 hrs – Auditorium

SHOWING OF  
"MONEY AND SCIENCE :  
THE PRICE OF A PARTICLE"  
IN THE PROGRAMME ARCHIMEDE  
(broadcast 7 March on ARTE)

"Five hundred dollars in 1932, eleven thousand million dollars in 1993, over a few decades the cost of particle accelerators, special machines which uncover the secrets of matter, has risen staggeringly along with their size, perhaps too quickly..."

The American SSC was abruptly stopped by Congress in October 1993, the bill already reaching 2 billion dollars.

Will this be the end of what we call "big science"? Well known names replied to *Archimède* : The Director-General of CERN, Christopher Llewellyn Smith, the Nobel prize winners Steven Weinberg and Carlo Rubbia, Bjorn Wiik, Director of DESY in Hamburg."

## TEMPORARY POSTS FOR CHILDREN OF MEMBERS OF THE PERSONNEL

During the period mid-June to mid-September 1994, there will be a limited number of vacancies for temporary employment at CERN (normally unskilled work of a routine nature) which will be made available to children of members of the personnel (that is, anyone with a contract with CERN). It should be noted that candidates must be aged between 18 and 24 inclusive on the first day of the contract, and that in view of the limited number of posts available, no children previously appointed at CERN under this scheme can be considered. The duration of all appointments will be 4 weeks, the payment being SF 1441.- net for this period.

Application forms can be obtained from Paula CASTANHEIRA, Human Resources Services (by using the slip below or by electronic mail to PCAS@CERNVM). Completed application forms must be returned to this Service by 22 April at the latest. The results of the selection will be available on 2 May and each candidate will be informed by mail.

Please send me an application form
