

I N T E R F O N - Société Coopérative de Consommation des Fonctionnaires Internationaux.
Baraque Wilson, bâtiment 511

Nous rappelons que la Société Coopérative Interfon s'adresse à tous les fonctionnaires internationaux ayant une résidence en France ou y ayant des intérêts : en effet, toute marchandise est livrée exclusivement en France.

La constitution de la société donnera lieu à la révision complète des articles offerts aux sociétaires et souvent à des baisses de prix ; la gamme et le choix vont s'élargir considérablement. Il ne nous sera plus possible d'annoncer toutes les nouveautés par le Bulletin hebdomadaire, aussi, nous établirons bientôt une documentation, complétée au fur et à mesure, et envoyée seulement aux sociétaires.

Donc, même si vous n'avez pas immédiatement besoin des services de la Société Coopérative, inscrivez-vous dès maintenant comme sociétaire : ce sera pour vous le seul moyen d'être tenu au courant des avantages dont vous pourrez profiter ultérieurement.

Pour devenir sociétaire, il suffit de souscrire une part sociale (Fr.F. 5.-) au bureau d'INTERFON.

C E R N S H O P - Bâtiment principal - 6e étage -
OUVERT : Lundi, mercredi et vendredi, de 13h. 30 à 17h. 00

Prochain arrivage de produits de lessive : mercredi 12 avril. Passez vos commandes à temps s.v.p.

En stock : Grand choix de transistors 1-2-3 longueurs FM, etc., de 20.- à 140.- francs.

Produits de beauté : Lait d'amandes, lotion rafraîchissante, crème hydratante, baume de pin, bombe désodorisante (pin et citronnelle). Produits d'excellente qualité, à prix très intéressants.

Sur commande : crème à l'huile de vison.

Clubs

R E C O R D C L U B - MID-WEEK CONCERT - WEDNESDAY 12th APRIL - MAIN AUDITORIUM at 13.00 hrs.

TCHAIKOVSKY : Piano Concerto No. 2 in G major, op. 44

Shura Cherkassky (piano) ; Berlin Philharmonic Orchestra conducted by Richard Kraus.

Tchaikovsky's second piano concerto is still overshadowed by the much performed first concerto in B flat minor. The G major concerto was written at approximately the same time as the well known "Capriccio Italien" which owes its existence to a stay in Italy in 1879/1880. Thus this second piano concerto, which is full of the same enjoyment of life, dates from a relatively peaceful period in the composer's life.

C L U B H I P P I Q U E C E R N

L'Assemblée générale ordinaire du Club est fixée cette année, en raison des vacances de Pâques, au LUNDI 10 AVRIL à 18h. 30 - dans le GRAND AMPHITHEATRE -

Les propositions à inscrire à l'ordre du jour sont à adresser à Madame B. BULLIARD, Div. MPS.

C R I C K E T C L U B

A Film Show will be held in the Main Auditorium of CERN on Friday, the 14th of April, at 8.00 p.m. The films consist of MCC tours around the world.

... All interested persons are invited to attend...

F O O T B A L L C L U B

Réunion du 3 avril 1967

1. M. A. Jimenez, élu membre du Comité de la Section de Football a, à la suite de démission, été remplacé par son suppléant, M. Bapst du TC.

2. Désignation des matches :

Arbitres

No 6	- 10 avril 1967	-	MPS I	- At. SB	-	M. Batardon
No 7	- 11 avril 1967	-	ISR	- NP	-	M. Vosdey
No 8	- 12 avril 1967	-	NPA	- PE/FIN	-	M. Langdon
No 9	- 13 avril 1967	-	TRBT	- TC	-	M. Batardon
No 10	- 14 avril 1967	-	MPS 11	- Computer	-	M. Grenu

3. M. Reniche fera parvenir à chaque responsable d'équipe leur date de marquage du terrain.

4. Lettre "Challenge Amitiés" - UGS.

IV

CLUB FOR CHESS AND OTHER INTELLECTUAL GAMES

As a result of the General Assembly of the Chess Club on 21st March, the scope of the club has been extended to include also other intellectual games than chess (cf last week's bulletin). The idea is to run a number of more or less independent sections under a common administration, with the possibility to create (and remove) sections depending on varying interest among CERN staff. We want to point out already at the outset that the word "intellectual" in the name of the club has been chosen to indicate merely that the scope of the club does not cover physical games like football, cricket, etc. or pure hazard games like roulette, chemin-de-fer, etc. The word "intellectual" should thus be understood as a qualitative rather than a quantitative attribute.

We also want to point out that the club has at least two distinct aims, namely :

1. To furnish people with the possibility of playing various games under organized forms - tournaments, matches, etc. ;
2. To stimulate people's interest in the theoretical study of games and recreational mathematics by arranging lectures, demonstrations, competitions, etc., and by building up a small library of literature in this field.

Thus it is our hope that with this club it shall be possible to offer CERN staff a rich and varied program of intellectual recreations.

- - - - -

Below follows a brief presentation of the sections that have been formed so far.

Chess - The chess section will from the point of view of it's activities be identical to the former chess club. Tournament play under various forms will alternate with lecture courses for beginners as well as for more advanced players. Matches against other clubs will be arranged and it is our hope eventually to be able to set up a small team of about 8 players strong enough to represent CERN in outside team tournaments.

Bridge - Enquiries have shown that there is a sufficient interest at CERN for regular bridge-playing. To get a better feeling for the quality of this interest a tournament will be arranged shortly. Section representative : Mrs. Choisy, NP - Tel. 2680 -

GO - The ancient Japanese board-game GO is attracting the interest of more and more western people, maybe thanks to its simplicity in rules and yet richness of variations and profoundness of play. To start a GO club at CERN (the first GO club in Switzerland as far as we know) must of course be regarded as an experiment. Still, soundings among the staff has shown that this game has many supporters at CERN and we hope that some form of regular play will be possible in the future. Section representative : T. Bloch, DD - Tel. 3084 -

Mathematical recreations - The aim of this section is to gather together from time to time people interested in arithmetic tricks, logical paradoxes, geometrical and topological puzzles, and games. Problems from various sources (books, journals, etc.) could be discussed, and new ones invented. It is not at all necessary to be a professional mathematician or physicist to enjoy recreational mathematics, even though great breakthroughs in this field are due to people like D. Hilbert and R.P. Feynman. Section representative : Ph. Rosselet, NP - Tel. 2340 - We welcome CERN staff to join the club together with their families, and to participate in any of its activities that might be of interest. The annual fee is only Fr 6.-, which includes membership in all sections of the club.

ACTIVITY PROGRAM APRIL-JUNE 1967 -

- I. Introductory lectures on GO - 4 Thursdays starting on the 13 April. Two parallel series at 6.00 and 8.00 p.m. will be given (about 1 hour each time). See invitation and application form below.
- II. CERN Chess Championship - an open tournament in 7 rounds played according to "système Suisse". Each Tuesday starting on the 25 April at 6.15 p.m. Application form in next bulletin.
- III. Individual bridge tournament. Details will follow later.

ACTIVITY PROGRAM FOR THE AUTUMN 1967 -

The chess section will arrange two series of lectures - one for beginners (with a slightly different program compared to last year's) and one series meant as a continuation of last year's course. The program for the other sections has not yet been decided upon.

Invitation to a series of lectures on GO

GO is a board-game about 3.500 years old. It was invented in China but it is thanks to the GO Academy in Japan that the game has been developed from a mere child's game to a very high degree of sophistication (without changing the rules). This short series of lectures (in English) is intended first to present the game to those who are interested in a piece of cultural history of the far East ; second to serve as an introduction to a more detailed study of the game. The course will lead to a stage where only actual experience in playing the game can lead the student any further.

APPLICATION FORM

I want to follow the series of four introductory lectures on GO, Thursdays from 13 April on, each lecture of about one hour. I prefer the following time : 6.00 p.m. ☐ 8.00 p.m. ☐

NAME : FIRST NAME : Div. : Tel. :

To be sent to T. LINDELOF, NPA.
