CERN PARTICLE PHYSICS SEMINARS

Tuesday, August 26
16.30
Auditorium

"Evidence for the H-resonance and other results from the
 $\pi^- p \rightarrow$ neutrals + neutron experiment at Serpukhov",
by Heinz Müller / Karlsruhe

Thursday, August 28
16.30
Auditorium

"Evidence for detection of a magnetic monopole",
by E. Shirk / University of California

Tuesday, September 2
16.30
Auditorium

"Ψchology : Theory and phenomenology of the new particles" -
(Rapporteur talk on the new particles at the SLAC Conference),
by H. Harari / Weizmann Institute

CERN NUCLEAR PHYSICS SEMINAR

Monday, September 1
11.00
Theory Conference Room

"Nuclear resonance effects in hadronic atoms",
by M. Leon / Rutherford Laboratory
