Second Discussion Meeting on High-Energy Physics Programme at CERN

We organize a second discussion meeting which will review the high-energy physics programme of the PS for the period from the end of the spring 1967 shut-down to the Easter 1968 shut-down. All physicists using the CERN accelerators, as well as those interested in using them, are invited to attend. Accelerator and theoretical physicists are also welcome.

The meeting will be held on Tuesday 9th May, 1967, at 14.30 in the Main Auditorium of CERN. The agenda will be as follows:

1. Review of beams and PS operation.
2. Review of approved counter, spark chamber and emulsion experiments.
3. Review of approved bubble chamber experiments.

After presentation of these points, there will be ample time for discussion, questions and remarks.

Geneva, 28 April 1967

Bernard P. Gregory
