CERN PARTICLE PHYSICS SEMINAR

Tuesday, August 4
16.30
Auditorium

"Partons"

V.F. Weisskopf / MIT - CERN

enseignement

FELLOWS AND VISITORS SERVICE

CERN - SUMMER VACATION COURSES - AUGUST 1970

■ Auditorium - 09.00

<u>Date</u>	<u>Subject</u>	<u>Lecturer</u>
3	The 28 GeV Proton-Synchrotron complex and the Intersecting Storage Rings	O. BARBALAT
→	A visit to the PS and the ISR will take place after the lecture. References of relevant literature : 1) Technical notebook No. 5 about the ISR (available in English and French, in the Public Information Office); 2) Technical notebook No. 2 about the PS (available in French only, in the Public Information Office).	
THIS WEEK 4 } 5 } 6 }	Modern physics from an elementary point of view	V. WEISSKOPF
	Lectures notes : "Modern physics from an elementary point of view", CERN Yellow Report 70-8.	
	7* Symmetries and their consequences	V. TELEGDI
■ Auditorium - 10.45 4 } 6 } 7 }	Meetings of a Discussion Group on FORTRAN Programming	F. LOUIS
	10 Classification and symmetry in physics	L. VAN HOVE
	11 } 12 } 13 } High-energy collisions of hadrons	J. KOKKEDEE
NEXT WEEK 14* 10	Weak Interactions of Strange Particles	V. TELEGDI
	Meeting of a Discussion Group on FORTRAN Programming	F. LOUIS

* Changes to Programme of Lectures
